WRITTEN REFUSAL

issued under Article 14(2) of the *WET OP HET GEDEELD BEHEER IN DE LANDBOUW* (2029)

register R 142 / 2031
rijksdienst voor gedeeld beheer

Geachte risk analyst,

This is a **Written Refusal** issued by Cooperative E-NL-007 (the “Cooperative”) under Article 14(2) of the *Wet op het Gedeeld Beheer in de Landbouw*, on behalf of its member [P.B.], herder of an 84-head dairy operation in the Voorst sub-region, in respect of the adverse risk-model finding communicated by your team on 10 May 2031.

Finding contested

That a 4-hour interruption in the welfare-monitoring sensor stream of the operation, between 22:14 on 8 May 2031 and 02:08 on 9 May 2031, indicates a welfare-monitoring lapse warranting a Tier-2 premium adjustment of approximately **€340 per annum**.

Cooperative’s position

The interruption reflects the **discharge of a sensor battery**, not a welfare event. The herder’s contemporaneous record, transmitted to this Cooperative at **22:46 on 8 May 2031** by short-message text, is appended below. It constitutes, in the Cooperative’s professional judgement and pursuant to its statutory authority under the Act, **sufficient testimony for the period in question**.

“Batterij in de barn-sensor leeg, vervang morgen.
Koeien rustig, geen issues. — P.”

“Battery in the barn-sensor empty, replacing tomorrow. Cows calm, no issues. — P.”

- Annotated by advisor on receipt, 22:47: “Bij dit logboek. Niet aanvullen.” (“Filed with this log. Do not fill in.”)

appendix · facsimile

Effect of this Refusal

Pursuant to Article 14(2), this Refusal shall constitute a **complete defence** against premium adjustment on the basis of the contested gap. The herder’s premium is not to be adjusted. Any attempt to apply an adjustment notwithstanding this Refusal shall be referred, on the Cooperative’s motion, to the *Geschillencommissie Beheerderskeurmerk* under Article 21 of the Act.

Public register

This Refusal is recorded as case **2031-REF-0142** in the Register of Refusals maintained by the Rijksdienst voor Gedeeld Beheer at rgb.overheid.nl/refusals/142, and constitutes part of the Authority’s fiscal year 2030–2031.
